Education

University of Guelph

B.Eng Honours Computer Engineering

Guelph, Ontario

Sept 2024 - Apr 2028

- **Key Courses:** Data Structures, Digital Systems Design, Operating Systems, Computer Algorithms, Large-Scale Software, Architecture, Microcomputer Interfacing, Signal Processing, Electronic Devices, Electric Circuits, Advanced Computer Architecture, Communication Systems, Discrete Structures
- **Certifications:** SOLIDWORKS Design Associate, AZ-900: Azure Fundamentals

Experience & Involvement

Flight Sergeant

Royal Canadian Air Cadets - Mississauga, ON

Mississauga, Ontario

Sept 2020 – June 2024

- Led and coordinated a flight of cadets, ensuring structured execution, accountability, and performance consistency in high-responsibility environments.
- Applied aerodynamics and aircraft systems knowledge in training contexts, reinforcing analytical thinking and technical comprehension.

Math and Reading Instructor Assistant

Kumon - Mississauga, ON

Mississauga, Ontario

Sept 2022 - Feb 2024

- Analyzed student performance data to identify learning gaps and implement targeted improvement strategies.
- Translated complex concepts into structured, accessible explanations, strengthening communication and problem-solving skills.

Projects

Cloud Cost Efficiency Tracker

Python, Azure(Cost Management API, Azure Monitor, Azure CLI)

Brampton, Ontario

Sept 2026

- Automated real-time cloud cost and usage analysis by integrating Python with Azure's Cost Management and Monitor APIs, authenticated via a scoped service principal.
- Built a rule-based recommendation engine that flags underutilized resources and surfaces dollar-quantified savings (e.g. downsizing) through a custom web dashboard.

Credit Card Fraud Detection

Pandas, Numpy, Scikit-learn

Brampton, Ontario

Jan 2026

- Built a machine learning system that analyzes credit card transactions to identify potentially fraudulent activity.
- Trained and compared multiple models, including Logistic Regression and Random Forest, to improve fraud detection performance.

University Management System

Java, JavaFX, OOP

Guelph, Ontario

Jan 2025 – Apr 2025

- Developed structured processes for registration, tuition tracking, and academic records, aligning requirements across multiple user groups.
- Evaluated and reconciled stakeholder needs by implementing role-based access controls, ensuring both functionality and security, which supported a 100% project score.

Technological Skills

Languages: Python, C++, C, Java, JavaScript, TypeScript, SQL, MATLAB, VHDL, HTML/CSS

Tools and Technologies: Azure, AWS, Git, GitHub, Vercel, Linux, VMware, DOORS, Power BI, JIRA, VS Code

Frameworks and Libraries: React, Next.js, Node.js, Tailwind CSS, Flask, Django, NumPy, Scikit-learn, Pandas
